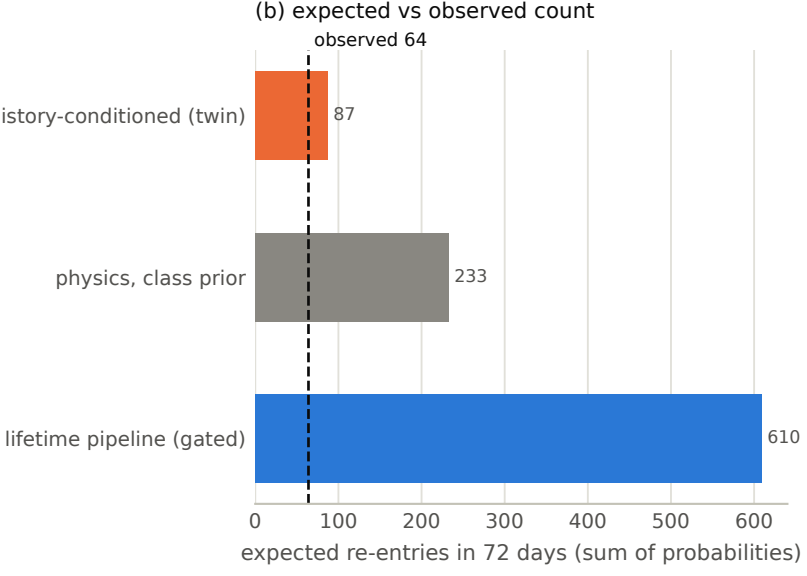
(a) reliability, fragments, stages and components
physics, history-conditioned (twin)
physics, class prior
lifetime pipeline (gated)
observed share
mean predicted P(re-entry within 72 days)



(b) expected vs observed count
observed 64
physics, history-conditioned (twin)
87
physics, class prior
233
lifetime pipeline (gated)
610
expected re-entries in 72 days (sum of probabilities)
